-The Grange Conservatory

We were approached by an architect who wanted the old Grange conservatory taken down and replaced. It needed to look the same but with modern features and to go back in exactly the same place (a P shaped conservatory onto new timber elevations and to be double glazed). -The reason for this was the peg tiles and drainage to the front and sides of the property were to stay in position. This was a challenge, but with our 25 years experience in the glazing sector and our wide range of suppliers we managed to get it perfect. -This roof was manufactured by Ultra Frame. This consists of UPVC glazing bars, reinforced with Aluminium. -Additionally the roof was glazed with Pilkington's Blue Self Cleaning Glass. This not only self-cleans but also keeps the conservatory cool in the summers and will keep the warmth in in the winter.

Waller Glazing Services

Waller Glazing services works include window repairs. This consists of double glazed units, window handle and hinges. We also carry out complete aluminium and uPVC window and door installations.-Furthermore we would be happy to price any maintenance or repairs. We stock a large range of fire and safety glass which we can cut to size while you wait.
