## **New School Pathway**

Saxon Way School was in need of a new school pathway to link the school building with their sports field. The reason for the ramped pathway was to provide disabled access to a more inclusive play area. This is to help disabled children and parents attend sports day and for the school to hire the sports field to a more diverse cliental.

## **The Build**

The existing area consisted of a grass bank. Initially, we excavated the area and laid type 1 foundation with edging stones being added along the complete length of the pathway. We then installed a top layer of Breedon gravel, a hard compacted material which is wheelchair friendly. Breedon gravel delivers an exceptional, resilient and attractive natural finish with a robust surface which subtly blends in with the scenery.

To complete the pathway, we installed a new key clamp galvanised handrail system. In addition we also added steps, an area with large planters and a space which the school will turn into a seated area in the future.

## **Helping to be Green**

For the new pathway to go ahead we needed to remove many trees. To compensate the loss to the environment, we planted 50 new trees at the end of the project which ensures that the school is more environmentally friendly and also providing a more inviting green area.

For similar projects that we carry out in schools please click on the following link to the education section of our website [www.wallerservices.com/schools-education-clients/](http://www.wallerservices.com/schools-education-clients/)

## **Building Services We Provide In Schools**

The building services we provide include smaller refurbishments through to extensions and new builds. We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

## **Glazing Services We Provide In Schools**

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.

## **Contact Waller Building and Glazing Services**

Based in Sittingbourne, Kent, we carry out works throughout the south east of England.-If you would like a quotation on any size of building project, please contact us. Telephone – 01795 424435
